Virus Total 101

Benefit of opening an account

<https://www.virustotal.com/gui/join-us>

The image shows the 'Join our community' registration form on VirusTotal. It includes fields for First name, Last name, Email, Username, Password, and Repeat password. A note states: 'Your selected username may be displayed if you contribute to comments, public collections, and other public resources.' The email field is pre-filled with 'jofanswork@gmail.com'.

1-known-distributor: Microsoft

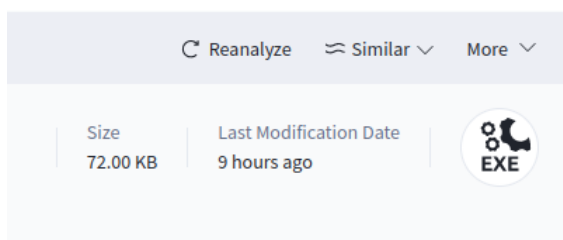

2-masquerading :check on <https://attack.mitre.org/>

What is the MITRE ATT&CK Technique ID for masquerading?

T1036

3-DLL Search Order Hijacking : T1574.001

A DLL is code that can be shared by multiple programs and this technique tricks a file to load something malicious instead of the normal code by renaming a malicious file to have the same name as a benign DLL.

Reanalyzing files is important: file appears to be old, file may be very new

masquerading : uploaded a legitimate file with a wacky name. Match Legitimate Resource Name or Location
